**MOONSHINE
RECIPE**

Take corn, and crush hit.
Add water and a little yeast.
Then work it up to a mash.
Hits better to let your mash
furment a few days. Now put
yer mash in your boiler and
start the fire. The heat will
vaporiz the mash and turn it to
a liquid and collect in your jug.
After its ages its ready for
drinking, cooking, snake bits,
run your cars and trucks and
lubercate your mules. Its the
only thing that keeps rev-
enoover man a job.
